STORBOX 250

The perfect cassette for small spaces

BOX

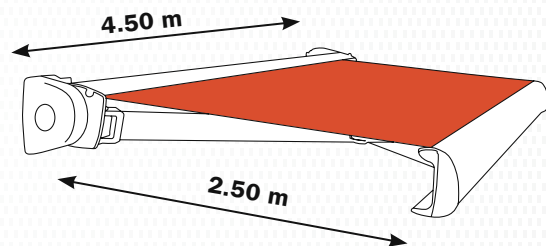

Description

This awning comes with a cassette system and is light, easy to install and very attractive. Thanks to its self-protection system, there is no need to perform maintenance on the awning and it will have a considerably longer lifespan.

Ideal for installation

- On balconies
- On small terraces

Dimensions

Mounting

- Wall
- Ceiling

The tension transmission system

This system is especially designed to include the ART 250 invisible arms system with the internal ART SYSTEM tensioning system to provide greater strength and durability and extend the lifespan of the system by ten times.

Operation

- Manual
- Motorised
- Automated

Finishes

- Lacquer in accordance with QUALICOAT standards
- Stainless steel screws and bolts

European standard classification: Class 2
